

ASSEMBLY INSTRUCTIONS

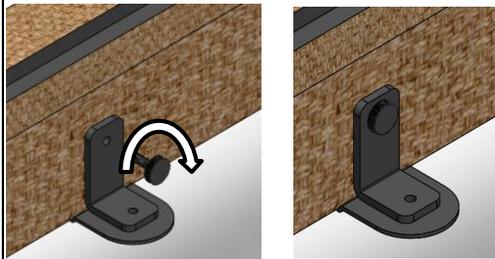

1

Side Rail

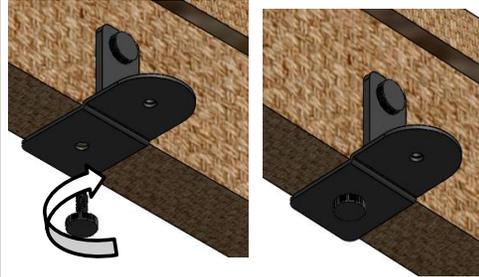

Align the metal bracket on the side rail (Support legs).

2

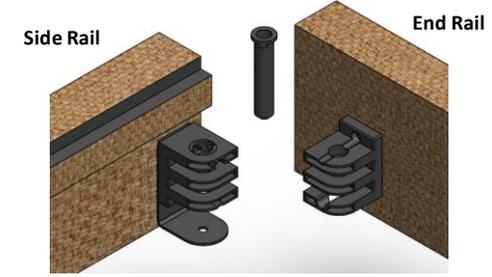

Turn the knob until the metal bracket is tight (This must be done on the side rail and center rail).

3

As in the upper part, in the lower part of the side a knob is also placed to hold the metal bracket (This must be done on the side rail and center rail).

4

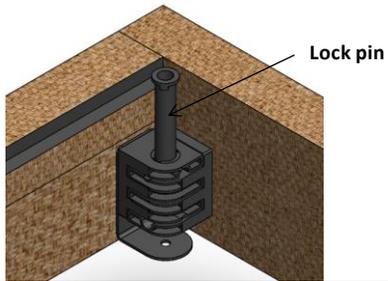

Side Rail

End Rail

Align locking blocks in each of the four corners.

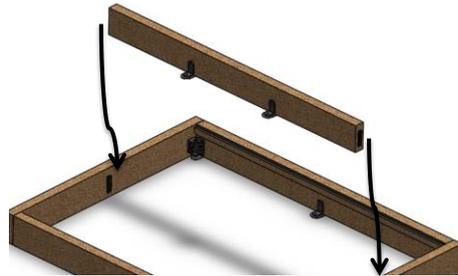

5

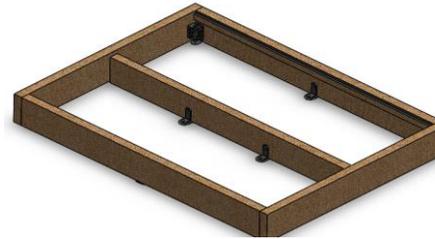

Lock pin

Insert lock pins into each of the four locking blocks, pushing firmly to ensure proper alignment.

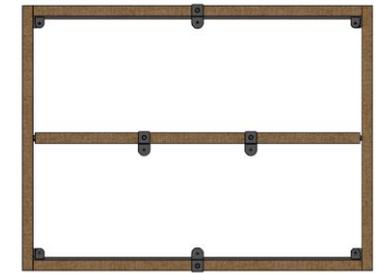

6

Line up each end of the center rail with the corresponding tapered slide connector and firmly push down into place, making sure the "up arrow" faces upward.

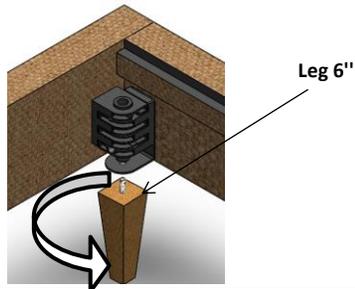

7

This is how it should look at the bottom.

8

Leg 6"

Place the legs on each of the metal brackets containing thread.

9

Bed base with legs

10

Slat Pack

Start one each support slat Pack against the head/ foot board, with the hook side facing down to firmly catch the loop material on each side rail clear. Unroll the slat packs towards the center fully extending them. You're finished; goodnight.
